

Do offer 360-degree feedback surveys?

Last Modified on 11/16/2017 5:56 pm EST

Yes. 360-degree feedback surveys are a great way to kick off a leadership development program. They are very useful especially when participants may be not understand they need training.

360-degree feedback surveys are also helpful in determining ROI for a leadership program. We suggest a second round 6 months after the program is complete.
