

What courses does THTE offer?

Last Modified on 02/06/2019 12:46 pm EST

Since every training we do is customized to the client, the short answer is just about anything. However, there are some courses that are so specialized we know there are others out there who can do it better and so we do not do them (OSHA, lean manufacturing, and ESL are common examples of this).

For an idea of the breadth of what we offer, however, you can find a PDF of common offerings [here](#).
